### Neomounts by Newstar VESA Conversion Kit - Convert non-VESA screens to work with VESA mounts

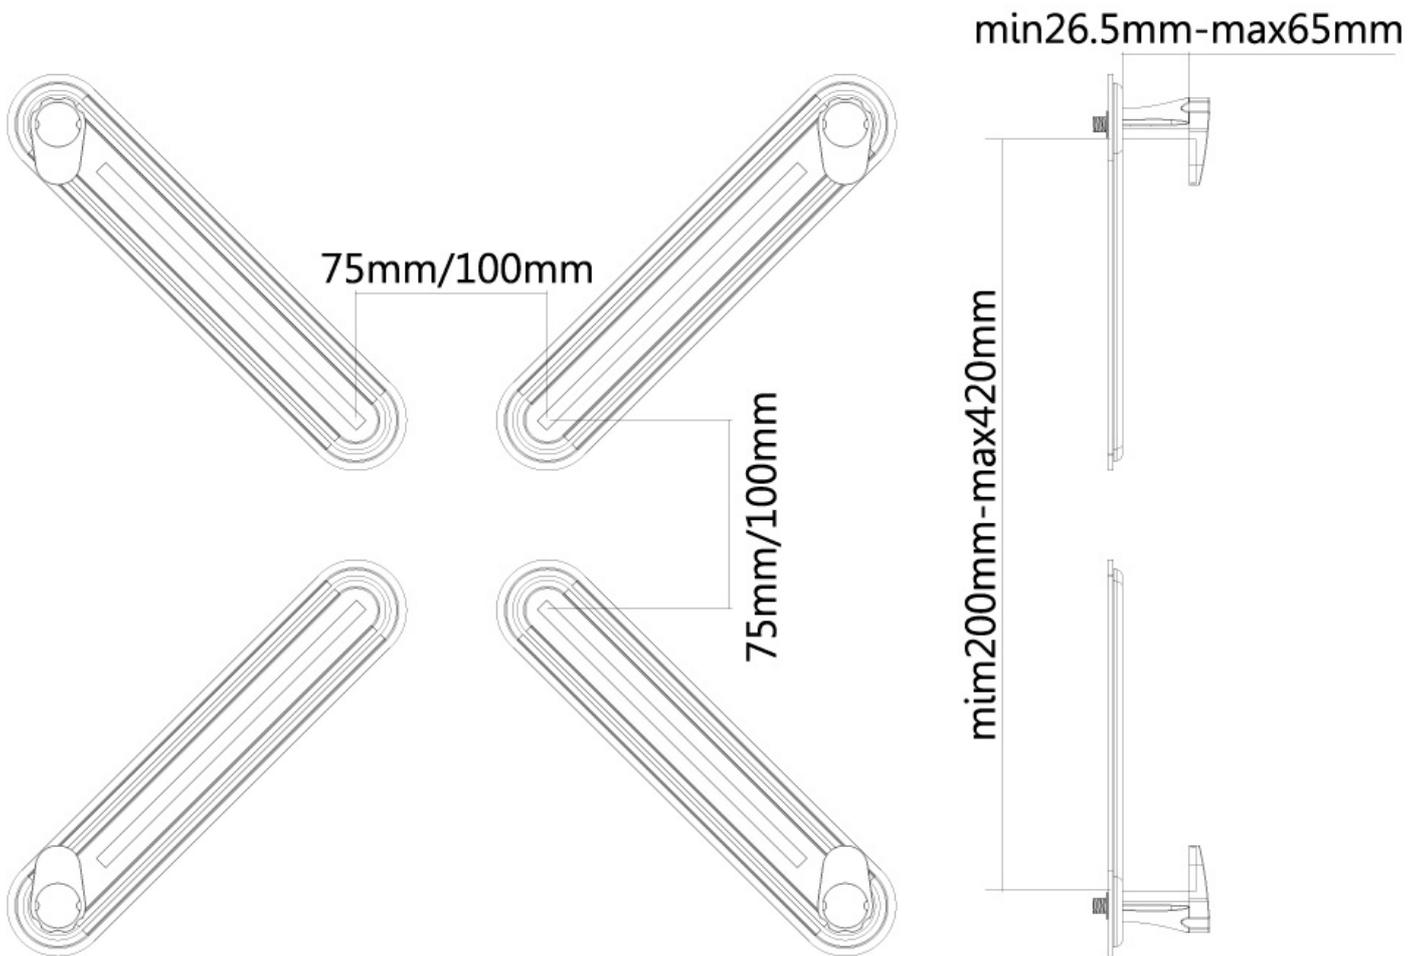

The Neomounts by Newstar monitor adapter kit, model FPMA-VESANON, is an innovative mounting solution for you to mount monitors without VESA compatibility to a monitor desk or wall mount. The adapter is designed to fit any VESA monitor mount with 75x75 and 100x100mm mounting holes, and includes all required screws and other hardware for assembly.

The adapter uses a four-arm system to adjust to the different external dimensions of flat-panel monitors and clamp them in place securely. This adapter supports most 13"-27" monitors with thickness of 25.5mm to 45.5mm. It allows your non-VESA monitor to be mounted on almost any ergonomic monitor arm and to be adjusted for improved viewing comfort.

All installation material is included with the product.
